NUMBER 49.

Notice to Mail Subscribers.
Subscribers are supplied with a notice of the date their subscription will expire ten days in advance of the time; and again with a second notice the day the last copy paid for is sent. This will enable all persons to keep the term of their accounts, and to renew in time not to miss an issue of the paper.

Their Absolutists are great friends of freedom. They rant about freedom all the while. They are for their own freedom and the freedom of the negroes. They are not for free speech, a free press, or free elections. Those must be no restrictions upon them, or upon the negro, but white men need to be restrained, or they will abuse the freedom of the press or the freedom of speech, or the freedom of elections. There are only two classes to be gloriously free—the Abolitionists and the negroes. He that cleavers for the freedom of any other person or thing is not loyal. In the new order of things only Abolitionists and negroes are to be free. They must be served first, and there is not freedom enough to go round.

These Abolitionists are for the Union now, in order that these two classes shall be free, and they want a Union in which they and nobody else shall be free. They must be free to persecute and punish those who don't agree with them, otherwise the luxury of freedom they may be interfered with. A man

may be with all his heart for the Union; but if he is not for the Union in which Abolitionists and negroes have all the freedom, he is not of the right stripe. He is an enemy of the Union and the Government; perhaps he is for Jeff Davis' Government. If the latter was true, we can't say why these ambitious gentlemen are sending secret circulars about. They have a right to go on this way if they have mind to, and the mystery about them does not deceive anybody as to who they are and what they are about. They are the old Know-Nothing party, and they want to cut a figure in the ensuing Presidential election, even if it be a small figure.

The brethren resolve well. They are gifted in that way; but nobody can tell what they mean by what they resolve, nor how long they will stick to what they mean. One wile they are scared at the Pope and foreigners, and make no agonizing efforts to save the country, its liberties and all', from being gobbl'd up by the man of sin and his minions. Then they forget 'em about it, and take after Southern rights, stent the negro in the Territories. In their 'n' of horrors, squatter-servitude takes the place of the Pope. The whole party in the Southern States have gone into secession for their leader, John Bell', except in one or two border States. The small remnant left are tooling a small trumpet to gather up what still remains. Let 'em alone, and see what sort of gypsies they will go through.

THE New York Tribune, in giving the results of the military election in this State, puts down T. S. Brown, for Congress in the Ninth District, Copperhead. Brown is an Administration man.

A GRAPHIC SKETCH.—The editor of the Litchfield Enquirer, on a trip to Berkshire county, Massachusetts, gives the following touching incident, which may occasion a little more thoughtfulness in future, in the public mind:

We were at the railroad depot, when the train came up from Bridgeport. A' Barrington was there with us, to welcome a wounded hero—a Lieutenant of the Twenty-eighth Connecticut, who was to arrive "from the wars." He, like me, and others with him, were cheering for our militia, and were having harkers and fragrant bouquets from the gentle sex, with hearty welcome and enthusiastic handshaking from all. Three open carriages were to carry his home, and he had been sent along the crowd and stood on the street. No one cheered him; no one, that we saw, greeted him; two of the carriages that went up to the depot for the Lieutenant, passed him on the way, returning empty; still he trudged on, weary, but undaunted, and had brought home his homely sash and coat.

But that was the picture the the train upon which came the Lieutenant, came also a young soldier—a private in the same regiment, wounded perhaps not, but evidently wond and wasted by the terrible fever, and was too weak to stand, and lay alone. This was a sad sight. Sunday morning he was mustered out of the service—by death! His name was Lynn Terrell, of Company F, and he was enlisted from Winsted, in our own county.

We have no comment to make on the contrast. It was a sad picture, and yet, as we have said, only too common.

ABOUT UNITED STATES CURRENCY.—The following in regard to mutilated U. S. Currency, will be of interest to those of our readers who are troubled with sort of commodity:

Ts. & G. Editors of the N. Y. Tribune:
Sir: The principal reason for the regulation in regard to the redemption of United States notes and fractional currency, is to protect the people from fraud, that would be committed against them by means of forged notes from friends to, or cut from different parts of like notes.

It is only where a piece of the above-mentioned paper is cut off for the purpose of fraud, or some malice or notorious carlars, and not removed by a note for redemption, that a proportionate reduction is made under the regulations of the office.

F. E. SP. INER, Treas. U. S.

Treasury Dept., Washington, Sept. 3, 1863.

MARVELOUS CHANGES.—It reads oddly to hear of men per excellence Union men who have excoriated the Union so long and so often. According to Mass., Lincoln and Seward, this Union we have had would not do. There was an irreconcileable conflict in it, and a house divided against itself cannot stand. Our Government has been wrong from the start, and it must now be changed. That is, the war must be made an engine of revolution, not to save the old Government, but to make a different one. We are unconditionally against what is, in our judgment, renderis its restoration impossible. We don't think that this is the new thing they are trying to make at all. We don't know what it will be. Judging from its authors, it will be the meanest thing in the world. We are against partial experiments in Government, by small men especially. Those thinkers are going to change the status of a whole race of people half the Union by force, and don't foresee what they will substitute for it. They have overruled the provisions of the Federal Constitution, and overthrown State Constitutions and laws, and what will work out of all this, who knows?

WE publish the returns of the late military election in this State, to put them on record. If the party that has obtained power by such means is satisfied, the rest may be. It is one of the cases in which defeat is more honorable than victory. Compare this with the number of white men over twenty-one years of age in the State in each county. Not half of them voted for both candidates. In many counties the vote on one side was curiously suppressed, and in others a precast here and there polled a small vote. "Unprecedented unanimity" of the loyal people of Kentucky. If these were true, then not more than half the people of the State are loyal—a gross libel on the State.

THE quibbler general over the way sees a startling inconsistency between admitting the power of making arrests by military power, and the declaration that such arrests were not existent a startling usurpation. Well, we are not responsible for his failure to see any better; he was made so.

A large number of fonts of job and card type; a number of fonts of wood type—good poster letters—several sizes.

Also, classes of various sizes, suitable for newspaper or book forms.

Bargains will be given. Terms cash.

WANTED.—A steady negro man, for the balance of the year. Apply at Democrat office.

POLICE PROCEEDINGS.—*Thursday, Sept. 10.* There was a fair amount of business transacted in the Police Court yesterday, the following cases being disposed of:

Frank Wilson, charged with stealing a lot of carpenter tools from Michael Stevens. Continued until to-morrow morning.

James Hall, stealing one coat and vest worth over four dollars. Continued until to-morrow.

James Frasier, drunk and disorderly conduct, \$100 for two months.

Sarah, a slave of Lucy Strange, for going at large and having her own time. Continued until to-morrow.

David Shrader and John Shrader, cutting Andrew Dorn with intent to kill, \$500 to answer an indictment.

Several peace warrants were disposed of.

LOUISVILLE THEATER.—This evening Miss Charlotte Thompson is to be the recipient of a benefit, when she will play "Julia" in Knowles' great play of the "Hunchback." This has long been looked upon as a test part, and we have observed that our neighbors of other cities unite in pronouncing Miss Thompson by far the best representative of the part who has ever essayed it in America, and judging by the transcendent beauty she has displayed in other characters, we have no doubt she deserves the reputation she has gained. Of course on this occasion the house will be crowded to overflowing.

WOOD'S THEATER.—To-night is the farewell benefit of Miss Sallie, and the last but one of the Holman Troupe. The opera of "Sonnambula" will be performed, Miss Sallie sustaining the character of Aminta, a part in which she has no equal. She will, during the evening, sing the new and beautiful song published by McCuller, entitled "I Think of Thee, Dear Madeline." We hope that the house will be crowded to-night, as the fair beneficary is deserving the patronage of our citizens.

CITY COUNCIL.—Both boards of the City Council were in session last night. In the Board of Aldermen, the ordinance authorizing the Mayor to borrow, on the credit of the city, \$16,000, for the purpose of erecting a new building for the female high school, was passed. This ordinance passed the lower Board some time since. The Council, after transacting other business, though none of importance, adjourned to meet again next Thursday night.

AFFRAY.—We understand that a difficulty occurred at the blacksmith shop on the corner of Hancock and Market streets about 7 o'clock last evening, between two men named John Dahl and Jacob Brown, during which the latter was struck on the head with a hammer in the hands of the former. Brown is said to be seriously injured and his recovery is considered doubtful. No arrests were made so far as we could learn.

THE GRAND PICNIC, which was to have taken place at Jones' Grove, on Wednesday, was postponed on account of the weather until to-day. Those who had anticipated the pleasure of being present on Wednesday will find every preparation made for their accommodation. Let them all remember, therefore, that the picnic will take place to-day, and govern themselves accordingly.

FINE PENS.—We would call the attention of our readers to the advertisement of Mr. Barnes, to be found in another column. He manufactures the finest and best gold pens to be found in the country, and any one wishing an excellent pen should give him a call. He is also prepared to repaint old pens and make them as good as new.

RESPECTED.—The slave Caroline, who was convicted at the last term of the Jefferson Circuit Court, for poisoning a small child of Mr. Levi, in this city, and sentenced to be hung on the 14th of August, and who was respite until to-day by Governor Robinson, has again been respected by Governor Bramlette until the 21 of October.

THE beautiful programmes printed by us from time to time for the numerous amusement troupes which have visited our city are conspicuously posted in most of the printing offices of this and the adjacent cities. The imprints in many cases are obliterated and the work passed off as their own. Useless—can't imitate them.

There was considerable excitement on Green street last night, caused by a number of persons rushing down the street crying "stop him! stop him!" &c. Upon inquiry we learned that the crowd was after a negro who had struck a white man with a stone.

THE finest lunches in this city are nightly set by H. B. Green, at the Cuban Saloon, on Green street. He has always on hand splendid oyster soup, potatoes, meats, vegetables, &c., together with all the necessary condiments.

THIRD street, from the Postoffice to Broadway, is sadly in want of the city scavengers. The condition of this leading thoroughfare renders it not only offensive but unhealthy to the neighborhood.

There will be an election in the General Council next Thursday night for City Gauger, to fill the vacancy occasioned by the death of H. B. Westby.

Everybody is looking forward to a pleasant week at the State Fair to be held at the Fair Grounds near the city, commencing on the 15th inst.

A soldier was shot and killed in Lexington on Saturday morning last for resizing the guard while attempting to arrest him.

CENTER COLLEGE.—We have been requested by proper authority to state that the next session of Center College will open on Monday, the 14th of September; that the faculty will be present, ready to discharge the duties entrusted to them; that complete arrangements have been made for the instruction of the classes usually taught by the President, until the election of a successor in October; that the price of boarding will not be much, if any higher than usual. New students, on arriving at the hotels in Danville, are requested to call on Professor Beatty, Vice President of the College, and now acting President, before they make any arrangements about boarding, who will give all the information they need, and save them much trouble.

KENTUCKY TOBACCO.—According to the Auditor's Report for 1861 there was produced that year in Kentucky 77,422,945 pounds. Of this amount, the First, Second and Third Congressional districts produced 65,263,505 pounds, or over five sixths of the whole amount. Now the practical question arising from this state of case is this: From what part of the State should the tobacco inspector be appointed. There would seem to be no question that the great tobacco district of the State is entitled to the appointment.

There has been no little excitement in Frankfort during the last few days, growing out of a reported case of scandal. Several unpleasant affairs have occurred, in one of which a Lieutenant of a Maryland regiment stationed there was instantly killed, and two citizens severely wounded. From the high social position of most of the parties concerned, and as there will be a civil investigation of the affair, we refrain from giving any of the particulars.

TENTH KENTUCKY CAVALRY.—This regiment left Mount Sterling on Sunday last for Mayville, Ky., where the men were mustered out of service Wednesday, their time of enlistment having expired. The tenth numbers one thousand and fifty effective men. A great many of them have signified their intention of re-enlisting in a short time.

AN SPECIAL DISPATCH to the Chicago Times says that on last Tuesday twenty-three negro soldiers made an attack on the white people near Lake Providence and killed nine persons. A committee has waited on Gen. Grant and asked for a garrison to protect the people of that section from negro violence.

J. A. CLEMMONS, who was arrested in Lebanon and brought to this city Wednesday night, charged with the murder of Dickinson, in Franklin county, Ind., on the 6th of February last, was yesterday taken to Indiana upon a requisition from Governor Morton, where he will be tried for murder.

PAROLED.—A. R. Hippel, of Beech Grove, Tenn., and S. P. Preston, rebel conscription soldier, were paroled at Nashville on Wednesday morning. The former was bonded in the sum of \$3,000 and the latter \$10,000.

CANADIAN MILITIA.—A proposition has been introduced into the Canadian Parliament to raise \$1,000,000 per year by direct taxation for the support of the militia.
